Guidance:

Market Quality summary for MM securities for month segmented by order quantity buckets. Number of orders shows total orders in the segment. All other statistics are share denominated. SWA stands for 'Share Weighted Average and signifies the statistic is computed by multiplying the shares executed by each trade's achieved statistic value and dividing over total shares applicable. Executed shares, Execution Speed and Realized Spread are over all orders while the remaining statistics are on market or marketable limit orders (designated at entry time) only. Realized Spread is computed using prices 15 mins after the trade time or the mid-price at session close when that comes first.

Guidance:

Market Quality summary for MM securities for month segmented by order quantity buckets. Number of orders shows total orders in the segment. All other statistics are share denominated. SWA stands for 'Share Weighted Average and signifies the statistic is computed by multiplying the shares executed by each trade's achieved statistic value and dividing over total shares applicable. Executed shares, Execution Speed and Realized Spread are over all orders while the remaining statistics are on market or marketable limit orders (designated at entry time) only. Realized Spread is computed using prices 15 mins after the trade time or the mid-price at session close when that comes first.
